

Sponsored Projects

Principal Investigator for:

(1) Investigation on ultra-fine grained (UFG) steels

(Sponsoring agency: Tata Steel)

(2) Processing – texture- property relationship in bulk nanostructured / ultrafine grained materials produced by Accumulative Roll Bonding (ARB)

(Sponsoring agency: Department of Science and Technology, Govt. of India)

(3) Processing – texture relationship in B-modified Ti-alloys

(Sponsoring agency: US Air force (AOARD))

Co-investigator for:

(1) Development of high temperature aluminium alloys

(Sponsoring Agency: The Boeing Company, USA)

(2) Equal channel angular pressing of metals and alloys

(Sponsoring Agency: Defence Research and Development Organisation, India)
